// 01 / ESSENCE

THE BRAND

Siedel Cabrales is the personal engineering identity of Siedel Jeremy Cabrales — a freelance AI engineer, SEO specialist and GoHighLevel specialist based in the Philippines. KAMTEAM is the studio sub-mark for collaborative and client work. The brand reads as a retro computer terminal: high-contrast, monospace, cyan-lit. It signals technical fluency without the corporate gloss.

// 01

PRECISE

Every element is monospaced. Every number is tabular. No decorative noise — only signal.

// 02

RETRO-TECH

CRT scanlines, cyan glow and VT323 type anchor the brand in early-computing nostalgia.

// 03

BUILDER

Shipping comes before polish. The mark reads like a shell prompt because the work ships from one.

// 04

DIRECT

Copy is terminal-plain. No filler, no superlatives — status, specs, and the next command.

LOGO + WORDMARK

SC

SIEDEL CABRALES

primary two-line lockup — the signature mark

// CONSTRUCTION

- SC chip: cyan stroke on dark-cyan fill (#001820).
- Wordmark: VT323 / Share Tech Mono Bold, tracked at 0.00em.
- Two-line Siedel / Cabrales is the signature lockup.
- Keep 1x chip height clear on all sides as safe area.
- Minimum width: 96px / 25mm.

// VARIANTS

SC	SIEDEL	KAMTEAM	SIEDEL
SC MONOGRAM	SIGNATURE	KAMTEAM SUB	INVERTED

// DON'T

- Don't rotate, skew or add drop shadows.
- Don't use the wordmark without its scanline-safe dark background.
- Don't swap the cyan for a non-palette color.
- Don't set the wordmark in any non-monospace typeface.

// BODY — SHARE TECH MONO (Google Fonts)

> Signal, not noise.

Share Tech Mono carries all body copy: nav links, paragraphs, buttons, labels, status lines and captions. It sits comfortably at 10-12pt in print and 0.85-1.0rem on screen. Letter-spacing is held at 0.14em for UPPERCASE UI labels and reset to 0 for prose.

TONE + WRITING

> WRITE LIKE THIS

- Short, declarative. Verbs first.
- Terminal cues: >, //, _, ■, ■.
- Specific numbers over adjectives.
- Status lines (STATUS: AVAILABLE).
- Lowercase UI, UPPERCASE LABELS.

X DON'T WRITE LIKE THIS

- No corporate filler (synergy, leverage).
- No emoji or mixed-case sentences.
- No italics for emphasis — use glow.
- No marketing superlatives.
- No paragraphs longer than 4 lines.

// VISUAL LANGUAGE

CRT. SCANLINES. GLOW.

The brand lives behind a simulated CRT: horizontal scanlines (2-3px, mix-blend multiply), subtle vignette, matrix rain at ~11% opacity, and cyan glow via text-shadow. Motion is quick: 150-560ms, cubic-bezier(0.16,1,0.3,1). Buttons flicker on hover.
